

## Erasmus +, KA2 has participated in St. Martin's Fair – Feira de S. Martinho

On 17th November 2017, our school carried out once again the traditional “Feira de São Martinho”, being this year the 12th edition.

This fair's main goal is to instill a dynamic of participation and sharing in each booth. Each class is responsible for a booth where several typical products of our region or homemade ones are sold, thus giving way to all students to share an experience of dynamic cooperation.

This activity is open not only to all the school community but to the town and the whole county as well. In fact, the mass participation of our students' parents, relatives and friends is a welcoming reality. That's why this fair has been a huge success since 2005, when it was held for the first time.
