TPM in Eindhoven

The second *Transnational Project Meeting (TPM)* of the project *Own your Learning 2.0* took place from May 29th to June 1st, in Eindhoven in The Netherlands.

Once this meeting was a *TPM*, it only included teachers (two from each country) and had, as its main purposes, to evaluate the activities carried out so far and also set the next *LTTA (Learning/Teaching/Training Activities)* and *TPM* dates. It also served to draw up together the intermediate report which will be submitted in the end of the first year of the implementation of this project.

In Eindhoven, we got to know the city and its interesting features. We also had the opportunity to see the various beautiful windmills and canals along the trip between Eindhoven and Amsterdam. In this latter city, we really liked the iconic houses that flank the main channel of the city, the emblematic shops of various kinds of cheese, some of them with unusual sizes, and the amazingly huge bicycle parks with hundreds and hundreds of them. In fact, we can say that this is probably the main means of transport in this city, which gives it a clear and unique specificity.

It should be added that this was once again a pleasant chance for us to meet and work with colleagues from all the countries that are part of this project.
